COMMON QUESTIONS

Do I own the site and domain? You own your website and your domain. Both are registered in your name — if you ever leave, you keep them.

Can I edit it myself? You can edit the site yourself, or send us the changes and we do them in your monthly edit time.

Why not build it myself on Wix? Because it never gets finished, never gets found, and nobody updates it. We deliver it done, then maintain it.

What if I need more later? Start with the Basic site. Everything else bolts on later — no rebuilds, no wasted money.
