- ✓ Live within 5 working days

CARE PLAN

R200

per month

Hosting management, SSL, security updates, weekly backups, uptime monitoring and 30 minutes of content edits per month. Cancel anytime — you keep the site.

HOSTING + DOMAIN

R200–R300

per year

Annual cost, confirmed once your site name availability is checked. Registered in your name.

How add-on pricing works. Every system you add is a once-off build fee plus 12% of that fee per month for maintenance — monitoring, updates, support and fixes. There are no other monthly charges. AI and WhatsApp (Meta) API usage is charged to the relevant areas: those items are billed at the same 12% plus their tracked monthly usage, quoted separately — you always see exactly what you used.

Minimum 12-month care plan on new builds. All prices in South African Rand (ZAR).

01. Systems that earn you money

Everything below is optional and can be switched on at any time. Once-off build fee, then **12% of that fee per month** for maintenance — no other monthly charges.

GROWTH & MARKETING

SYSTEM / SERVICE	ONCE-OFF	MAINTENANCE / MONTH
Campaign landing page	R250	12%

AI & WhatsApp usage. AI and WhatsApp (Meta) API usage is charged to the relevant areas: those items are billed at the same 12% plus their tracked monthly usage, quoted separately — you always see exactly what you used.

HOW IT WORKS

- 1 **Day 1** — 30-minute call: we collect your details, photos, prices and services.
- 2 **Day 2** — We check your site name, register the domain and start building.
- 3 **Day 3-4** — You review a preview link; we make your changes.
- 4 **Day 5** — Your site goes live and is submitted to Google.
- 5 **Ongoing** — we keep the site and every system running, and add new ones as you grow.

COMMON QUESTIONS

Do I own the site and domain? You own your website and your domain. Both are registered in your name — if you ever leave, you keep them.

Can I edit it myself? You can edit the site yourself, or send us the changes and we do them in your monthly edit time.

Why not build it myself on Wix? Because it never gets finished, never gets found, and nobody updates it. We deliver it done, then maintain it.

What does maintenance cover? Monitoring, updates, security, support and fixes for every system you've added — that's the 12%.

Do I pay for anything else? Only AI and WhatsApp usage, which is tracked monthly and quoted separately.

Ready to get found?

Book your free 30-minute consultation and we'll check your site name, your competitors, and exactly which systems will bring you the most work.
